AGUSAN DEL SUR STATE COLLEGE OF AGRICULTURE AND TECHNOLOGY

Bunawan, Agusan del Sur

Office of the Learning Resource Center

To address the needs of the Flexible Teaching Learning Approach (FTLA) in this time of pandemic, the Learning Resource Center (LRC) utilizes subscribed e-resources as instructional materials in response to the hybrid learning system. In addition, LRC facilitates Open Access Educational Resources for students and faculty to use as alternative sources of reference.

List of Open Access Educational Resources

1. <https://philconnect.ched.gov.ph/>
An online app that contains higher education course materials in text, media and other digital assets that are useful for teaching, learning and research purposes.
2. <https://global.oup.com/>
Oxford University Press is a department of the University of Oxford. It is our mission to further the University's objective of excellence in research, scholarship, and education by publishing worldwide.
3. <https://www.scienceopen.com/>
Functioning as a research and publishing network, Science Open offers open access to more than 28 million articles in all areas of science. Although you do need to register to view the full text of the articles, registration is free. The advanced search function is highly detailed, allowing you to find precisely the research you're looking for.
4. <https://www.cambridge.org>
Open Access at the University of Cambridge is managed by two dedicated support services: Open Access and Research Data Management. These groups assist the University's researchers and research students in making their research outputs freely accessible in the public domain.
5. <https://books.google.com>
Google Books (previously known as Google Book Search and Google Print and by its codename Project Ocean) is a service from Google Inc. that searches the full text of books and magazines that Google has scanned, converted to text using optical character recognition (OCR), and stored in its digital database. Books are provided either by publishers and authors through the Google Books Partner Program, or by Google's library partners through the Library Project. Additionally, Google has partnered with a number of magazine publishers to digitize their archives.

6. <https://www.panitikan.com.ph> (filipiniana)

The website is a project of the UP Institute of Creative Writing. Its primary aim is to make publicly accessible materials developed from the UP ICW's Literature for Social Development program and disseminate Philippine literature online by providing a database of author's profile, literary features, and news from literary organizations and agencies.

7. <http://panitikan.ph/freelipiniana-online-library/> (filipiniana)

This online library curates published literary works volunteered by Filipino writers and publishers. With their help, this digital archive gives Filipinos free access to reading materials made by Filipinos for Filipinos.

8. <https://authorservices.wiley.com/>

Wiley Open Access journals are supported by a network of authoritative journals and societies as well as internationally renowned editorial board members. All research articles published in Wiley Open Access journals are immediately freely available to read, download and share. Wiley Open Access publishes a number of online journals across biological, chemical and health sciences.

9. <https://www.aseanlibrary.org>

The ASEAN Digital Library is a regional project to aggregate and connect the digitized resources of National Libraries in the ASEAN region so that these repositories can be accessed through a single search facility. ADL is a project led by the National Library Board of Singapore, with support from the ASEAN Committee on Culture and Information (COCI).

10. <https://doaj.org>

DOAJ is a database of the University of Lund (Sweden) which provides access to quality controlled scientific Open Access Journals covering several subject areas. Open access journals use a funding model that does not charge the readers.

11. <https://www.ebsco.com/products/research-databases/free-databases>

EBSCO is the leading provider of research databases, e-journals, magazine subscriptions, e-books and discovery service to libraries of all kinds. EBSCO provides free research databases covering a variety of subjects for students, researchers and librarians such as EBSCO Open Dissertations, Library, Information Science and Technology Abstracts, European Views of the Americas: 1493 to 1750, GreenFILE, and Teacher Reference Center.

12. <http://philjournalsci.dost.gov.ph>

This is the online version of the Philippine Journal of Science (Philipp J Sci or PJS)—an open-access, single-blind peer-reviewed journal on natural sciences, engineering, mathematics, and social sciences. PJS is published by the Department of Science and Technology and managed by Science and Technology Information Institute.

13. <https://www.slj.com>

School Library Journal (SLJ) is offering temporary free access to digitized editions of SLJ, as well as all content on its website, SLJ.com.

They are also providing free access to the digitized editions of our entire magazine archive, including the latest issue.

14. <https://core.ac.uk/>

CORE is a multidisciplinary aggregator of open access research. It allows users to search more than 66 million open access articles. While most of these link to the full-text article on the original publisher's site, five million records are hosted directly on CORE.

In addition to a straightforward keyword search, CORE offers advanced search options to filter results by publication type, year, language, journal, repository, and author.

15. <https://press.anu.edu.au>

ANU Press is a globally recognized leader in open-access academic publishing. We produce fully peer-reviewed monographs and journals across a wide range of subject areas, with a special focus on Australian and international policy, Indigenous studies and the AsiaPacific region.

16. <https://eric.ed.gov/>

The Education Resources Information Center (ERIC), of the Institution of Education Sciences, allows you to search by topic for material related to the field of education. Links lead to other sites, where you may have to purchase the information, but you can search for full-text articles only. The service primarily indexes journals, grey literature (such as technical reports, white papers, and government documents), and books. All sources of material on ERIC go through a formal review process prior to being indexed.

17. <http://arxiv.org/>

The arXiv e-Print Archive has been around since 1991 and is a well-known resource in the fields of mathematics and computer science. It is run by Cornell University Library and now offers open access to more than one million e-prints.

18. <http://www.ssrn.com/> The Social Science Research Network (SSRN) is a collection of papers from the social sciences community. The site offers more than 700,000 abstracts and more than 600,000 full-text papers.

There is not yet a specific option to search for only full-text articles, but because most of the papers on the site are free access, it is not often that you encounter a paywall. You must become a member to use the services, but registration is free and enables you to interact with other scholars around the world

19. <https://www.base-search.net/>

The Bielefeld Academic Search Engine (BASE) is operated by the Bielefeld University Library in Germany, and it offers more than 100 million documents from more than 4,000 sources. Sixty percent of its content is open access, and you can filter your search accordingly

20. <http://www.opendoar.org/search.php>

OpenDOAR, or the Directory of Open Access Repositories, is a comprehensive resource for finding open access journals and articles. Using Google Custom Search, OpenDOAR combs through open access repositories around the world and returns relevant research in all disciplines.

The repositories it searches through are assessed and categorized by OpenDOAR staff to ensure they meet quality standards.

21. <http://paperity.org/>

PaperityPaperity boasts being the "first multidisciplinary aggregator of open access journals and papers." Their focus is helping you avoid paywalls while connecting you to authoritative research.

In addition to providing readers with easy access to thousands of journals, Paperity seeks to help authors reach their audiences and help journals raise exposure to boost readership.

22. <http://dlc.dlib.indiana.edu/dlc/>

Run by Indiana University, the Digital Library of the Commons (DLC) Repository is a access articles from around the world. You can browse by

document type, date, author, title, and more or search for keywords relevant to your topic.

23. <http://www.jurn.org/>

A multidisciplinary search engine, JURN provides you with links to various scholarly websites, articles, and journals that are all free access or open access. Specifically covering the fields of the arts, humanities, business, law, nature, science, and medicine, JURN has indexed almost 5,000 repositories to help you find exactly what you're looking for.

24. <http://ethos.bl.uk/Home.do>

Run by the British Library, EThOS allows you to search over 400,000 doctoral theses in a variety of disciplines. Although some full texts are behind paywalls, you can limit your search to items available for immediate download, either directly through EThOS or through an institution's website.

25. <https://zenodo.org/>

Taking its name from Zenodotus, the first librarian of the ancient library of Alexandria, Zenodo is a tool that was "built and developed by researchers, to ensure that everyone can join in open science." You can sort by keyword, title, journal, and more and download open access documents directly from the site.

26. <https://www.semanticscholar.org/>

A unique and easy-to-use resource, Semantic Scholar harnesses the power of artificial intelligence to efficiently sort through millions of science-related papers based on your search terms. According to the site, although some articles are behind paywalls, "the data [they] have for those articles is limited," so you can expect to receive mostly full-text results. Another feature is the extensive advanced search options, which allow you to search by cell type and brain region, among other things.

27. <https://www.econbiz.de/>

EconBiz is a great resource for economic and business studies. A service of the Leibniz Information Centre for Economics, it offers access to full texts online, with the option of searching for open access material only.

28. <http://www.datadryad.org/>

DryadDryad is a digital repository of curated, open access scientific research. It is run by a not-for-profit membership organization that aims to "promote a world

where research data is openly available, integrated with the scholarly literature, and routinely reused to create knowledge." It is free to access, but note that there is a publishing charge associated if you wish to publish your data in Dryad.

29. <http://dblp.org/>

The dblp Computer Science Bibliography is an online index of major computer science publications. Although it provides access to both free access articles and those behind a paywall, you can limit your search to only full-text articles. The site indexes more than three million publications, making it an invaluable resource in the world of computer science.

30. <https://booksc.org>

This site has been opened in 2009. The world's largest e-books and scientific articles store. 50,000,000+ articles and 2,800,000 ebooks for free download as PDF, epub...etc. for free.

31. <https://www.pdfdrive.com>

PDF Drive is a free search engine that lets you search preview and download millions of **PDF** files into your devices. When **PDF** files are withdrawn from the web, these files are also withdrawn from **PDF Drive** search results instantly. PDF Drive is your search engine for PDF files. As of today, they have 82,861,987 eBooks for you to download for free. No annoying ads, no download limits.

32. <https://www.degruyter.com>

The De Gruyter Book Archive carefully digitize 450,000 pages of scholarly treasures per month and optimize each by hand. The independent academic publisher De Gruyter looks back at an over 260-year history. Headquartered in Berlin, De Gruyter publishes over 1,300 new titles each year in the humanities, medicine, natural sciences, and law, more than 750 journals, and a broad range of digital media. The De Gruyter Group owns the imprints De Gruyter Akademie Forschung, Birkhäuser, De Gruyter Mouton, De Gruyter Oldenbourg, De Gruyter Open, and De Gruyter Saur.)

33. <https://open.umn.edu/opentextbooks/>

Open textbooks are textbooks that have been funded, published, and licensed to be freely used, adapted, and distributed. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. These books can be downloaded for no cost, or printed at low cost. All textbooks are either used at multiple higher education institutions; or affiliated with an
